Saturday, May 17th

I'm on a wonderful ¹ **journey** around the world, visiting different animal environments. Last week, I spent some time near the ² **ocean**, which is where lots of underwater creatures live. I saw an ³ **octopus**! It was hiding because sometimes octopuses are eaten by whales and sharks. I also saw lots of small fish and dolphins. In the middle of the ocean is where most sea ⁴ **creatures** are seen. They don't come close to the beach very much. I had to take a trip on a ⁵ **boat** to get close to them! But some are hunted by people, so the boat had to go slow because we didn't want to scare them.

This week, I am traveling through the ⁶ **jungle**. This is where I can find some wild animals, so I need to be careful. Also, I have been bitten by lots of ⁷ **insects** here! There are some strange creatures with huge wings! I need to put on a special spray to stop them from biting me. Yesterday, there was a lot of rain, but today it's hot. The ⁸ **weather** here is strange!

Next week, I am going to visit the ⁹ **desert**. I'm going to ride a camel. That's exciting! It's also very hot in the desert. Lots of people get sick after they've been burned by the ¹⁰ **sun**. I need to take special clothes, a big hat, and lots of water.

I will write again tomorrow!

Last week, I went to the forest. That's where I found some animals that live there. I saw a gazelle, a fox, and some birds. I walked around and observed other strange creatures! I liked the forest very much because of its quiet nature and fresh air, although I often dislike the bugs, mud, and hidden dangers.

This week, I am going to the mountains. That's where I can find mammals and soaring birds like golden eagles. I will be able to climb and watch the birds flying. Next week, I will go to a field. There, I will be able to walk and enjoy nature.

Victor's story

Victor loves playing the violin. He has been playing for a long time — ever since he was seven years old. At first, he performed at his school, where he quickly became very popular. All the students loved his music. Then, he took online music classes for seven months. After that, he spent five months as a member of a jazz band. He performed at several concerts and festivals, and even played in a concert hall with other musicians. Later, he won a prize for his amazing performance, which made him very happy. Finally, he got to play at a big music festival, where many people came to hear him play. Victor truly is a great violinist!

Hi Mason!

I know you were talking to Julian about his interests, and I wanted to share mine, too!

I think my interests have changed a lot. **over the past year. I have a collection of wildlife movies. I really love watching animals and nature. I've never tried traditional dancing, but I would love to try it one day. It looks fun! I don't have a collection of baseball cards. I'm not very interested in baseball. And I just started learning English online! I think I've liked it for about a month. What about you? What are your interest?**

When my dad was younger, he listened to a lot of jazz music. He went to some concerts, and then he went to a big festival. But after that, he stopped liking jazz. His next big interest was stamp collecting. He won a prize for his huge collection!

When he was older, he traveled all over the world! He got an invitation to write travel articles for a magazine. First, he wrote an article about the pyramids in Egypt, but he's never seen the pyramids in Mexico. Then he wrote poetry about his trips! Now, he has been a member of a writing group for three years.
